ink-jet plain paper fax

## FAX-LAB 220

The Olivetti Fax-Lab 220 is the ideal fax for practicality and reliability. Its versatile functions include the most advanced telephone features, such as phone book and SMS. Furthermore, thanks to its ink-jet print technology, it leaves no trace of the documents copied and received, so that only you are aware of their contents. The Fax-Lab 220 uses water-based inks and is designed for especially low energy consumption: this reduces its environmental impact to a minimum while maximising cost savings.

Olivetti Fax-Lab 220: the innovative, flexible fax machine, ideal for all your needs.
