HIGH PAPER CAPACITY
up to 100 cut sheets

CENTRAL NAVIGATOR with all function keys close at hand

DESIGN AND PERFORMANCE

With an **innovative ergonomic design, enlivened by stylish colour accents,** the FAX_LAB 480 is a state-of-the-art product for professionals.

The high-speed 14,400 bps modem transmits an A4 page in just 7 seconds. The device also offers impressive operating autonomy: the document memory stores up to 100 pages, the automatic document feed holds 20 pages, and the paper tray has a 100-sheet capacity.

TELEPHONE

For maximum flexibility, the range of **advanced telephone features includes caller ID, a 60-number phonebook, hands-free dialling and hands-free speaking**, as well as a list of unanswered calls.

ANSWERPHONE

The FAX_LAB 480 is equipped with a **modern, practical answerphone,** with remote access, a 15-minute memory and indefinite retention of the recorded messages in the event of power failure. Incoming message time can be configured as required. The display shows the date and time of messages in playback.

SMS TEXT MANAGEMENT

A key feature of this fax is the **SMS function**, for writing, sending and receiving texts and, **particularly important, printing incoming texts.**

EASY TO USE

The control panel of the FAX_LAB 480 has been restyled, for enhanced ergonomics and ease of use. The main element is the centrally positioned **intuitive navigator, surrounded by all the main function keys.** The LCD display is placed above the control panel, so that all the programming keys are close at hand.

QUALITY

Ink-jet technology delivers better printing quality than thermal transfer technology, a difference that is particularly apparent in greyscale documents. The long-life print cartridges guarantee autonomy and keep running costs down. And like all Olivetti fax, the FAX_LAB 480 ensures security and confidentiality: **no traces are kept of documents after reception or copying.**

FAX_LAB 480
