MULTIFUNCTIONALITY TO CHEER FOR

The Olivetti d-Copia 250MF is the new frontier in multifunctionality, the ideal tool to handle the operating needs of one or more offices. With its powerful performance levels, flexibility and low running costs, this multifunctional digital copier sets new records in its product category.

On the Olivetti d-Copia 250MF, the printer is provided as a standard feature, to ensure that the typical stability and robustness of digital copiers also extends to the print function.

With the optional scanner and fax, the Olivetti d-Copia 250MF delivers all the capabilities you need, for professional quality in every area. All in one machine and with the guarantee of exceptionally long life: the drum will keep you going for a good 300,000 copies.

A GALAXY OF STARS

The Olivetti d-Copia 200MF gives you everything you need.

Its copy function implements state-of-the-art laser technology. And in network environments, the printer handles any format from A3 to A4 for a whole group of computers. The scanner provides top capabilities to scan documents, and then save them on your desktop or forward them to other users with the scan to e-mail function.

The Olivetti d-Copia 250MF also provides full support for digital document archiving. Once a document has been acquired it can be digitally archived, helping you keep your desk free and tidy.

A WINNER IN SPEED

The Olivetti d-Copia 250MF uses a powerful 300 MHz PowerPC CPU to keep processing times to a minimum, even on the heaviest workloads.

A capacious memory is the secret of its speed, which clocks up 25 pages or copies per minute. The scan rate is 25 pages per minute too (A4), while the fax function takes only 2 seconds to transmit an A4 page.

But users know that speed also depends on easy operation.

The Olivetti d-Copia 250MF keeps things simple, whether you're working from the operator panel, or activating operations directly from your computer. Replacement of consumables is just as quick, and clean, because the cartridge is sealed to prevent toner spills.

CHOOSING SUCCESS

The Olivetti d-Copia 250MF offers total freedom in paper management, with a stock of up to 1,250 cut sheets and support for formats from the A3 to the A6R. And the optional sorter will staple documents to give your work a professional finish.
