**OLIVETTI d-COPIA 35
DIGITAL PHOTOCOPIER**

olivetti
@HOME@OFFICE

I MAY SAY SO MYSELF, BUT I DON'T SHY FROM HARD WORK, NOT EVEN IN THE FACE OF ALL THE DEMANDS, BIG AND SMALL, OF A MINI-DEPARTMENTAL OFFICE. I COME WITH ALL THE POWER AND DIGITAL TECHNOLOGY THAT OLIVETTI HAS TO OFFER. WHAT'S MORE, MY NEW LOOK TURNS HEADS, WHILE MY ENVIABLY COMPACT DIMENSIONS LET ME FIT INTO ANY SPACE. AND I HAVEN'T EVEN MENTIONED HOW MUCH I CAN HELP YOU SAVE! THANKS TO MY TONER UNIT AND INNOVATIVE LONG-LASTING DRUM, I KEEP A TIGHT LID ON YOUR COPY COSTS. IF I GO ON LINE WITH MULTIPLE WINDOWS AND MAC USERS, I CAN PRINT, COPY AND SCAN. AND EVERYONE IN THE OFFICE CAN ENJOY TROUBLE-FREE SORTING AND BINDING THANKS TO MY INEXHAUSTIBLE PAPER SUPPLY.

d-COPIA 35

200-sheet bypass for increased flexibility

easy connection for multiuser environments

QUALITY AND COST SAVINGS? MASTERSTROKES

The Olivetti d-Copia 35 knows all there is to know about saving: its hi-tech toner unit and drum just go on and on and on ...

You'll be pleasantly surprised by the cost per copy achieved by Olivetti's new technology: on average, during its first two years, the d-Copia 35 will only need a toner change. It also offers toner and energy-saving features, as well as auto power-down and immediate start-up, to provide significant financial and environmental advantages. The Olivetti d-Copia 35's digital quality output speaks for itself. With its 600x600 dpi and 256 shades of gray, all the copies are flawless and identical to the original, even when dealing with images or photos.

MULTIFUNCTIONALITY MASTERED

Put the Olivetti d-Copia 35 on line and your office will never look back.

Thanks to its Fast Ethernet interface, the d-Copia 35 works in every operating environment: from Windows 95/98 to NT, from Novell Netware to MacOS. This ensures everyone can use its superb copy, print, scanning and SuperG3 fax facilities.

All these high-performance functions are perfectly easy to manage thanks to the new console's touch-screen, which allows

you to organize all the machine's operations in a straightforward user-friendly way. What's more, with the pre-loaded monitoring program, everyone in the office can have access to information about the network and peripherals.

PAPER MASTERY

The Olivetti d-Copia 35 practically never runs out of paper: its two standard trays hold 500 sheets each, the bypass can handle 200 sheets and lets you print on transparencies, envelopes and paper up to 160 g/m²; to save time and paper, the SRDF and the duplex unit enable front-back copying and printing. As an extra, there are also two optional 500-sheet universal trays. The duplex and finisher units are perfect for producing bound documents: center-bound with a cover, or stapled and hole-punched for easy filing.

OLIVETTI WORLDWIDE ASSISTANCE

With the d-Copia 35, print and copy quality is guaranteed on every page, not to mention easy maintenance from replacing toner to changing paper.

And whatever you might need, you only have to ask: your Olivetti Dealer will answer all your questions.

SRDF and duplex unit for front-back copying and printing

optional finisher for center binding or stapling and hole punching for filing

- 1 4,200-sheet back-up for maximum autonomy
- 2 new touch-screen console for job management
- 3 four 500-sheet universal trays (two standard and two optional)
