WHATEVER THEIR SIZE, OFFICES HAVE SIMILAR GOALS AND REQUIREMENTS. THE OLIVETTI D-COPIA 45 IS MEANT FOR THEM. AS A DEPARTMENTAL DEVICE, ITS STRENGTH LIES IN ITS VERSATILITY, ITS ABILITY TO DELIVER ANY TYPE OF FINISHING SOLUTIONS, THANKS TO TWO FINISHER UNITS FOR WHICH A COMPLETE RANGE OF OPTIONS IS AVAILABLE. THE OLIVETTI D-COPIA 45 COMBINES A SPEED OF 45 COPIES PER MINUTE WITH THE COST-EFFECTIVENESS GUARANTEED BY A LONG-LIFE DRUM GIVING AN IMPRESSIVE CAPACITY OF 400,000 PAGES. THE D-COPIA 45 IS A VERSATILE PERFORMER IN NETWORK ENVIRONMENTS TOO, WHERE IT OFFERS SUPERIOR PRINTER AND SCANNER FUNCTIONS (OPTIONAL). VERSATILITY AND INTEGRATION, MADE TO MEASURE ON A DEPARTMENTAL MACHINE INTENDED FOR COMPANIES THAT SEE FLEXIBILITY AS THE KEY TO PRODUCTIVITY.

FLEXIBILITY FOR A WINNING SOLUTION

Endlessly versatile, the Olivetti d-Copia 45 can meet any finishing requirement. Because its finisher units can be integrated with a wide range of options. Users create the configuration best suited to their needs, beginning with one of the two basic units and adding the options they require. The DF-600 finisher includes a multi-tray option to divide and distribute workloads. Whereas the DF-610 supports not only the multi-tray option, but also 2- and 4-hole punches and a booklet folder.

LONG LIFE TO QUALITY

In addition to versatility, the Olivetti d-Copia 45 delivers outstanding graphical quality: 600x600 dpi for copies and 1800x600 dpi for printing. So documents are perfectly sharp, with the precision and nuances delivered by 256 shades of grey.

This quality extends to cost of ownership, where the innovative long-life drum – 400,000 pages – keeps maintenance time down to 30 minutes. The results are minimal copy and service costs, surprisingly low for a departmental machine.

DOUBLE THE POWER

The Olivetti d-Copia 45 produces 45 copies per minute, but if you want to make short work of heavy loads, just hook two machines together in a tandem configuration to obtain a stunning 90 copies per minute.

DEPARTMENTAL MULTIFUNCTIONS

The Olivetti d-Copia 45 departmental machine has been designed to meet the needs of the most demanding users. Its 20 GB hard disk reduces copy time to a minimum and optimises office productivity: frequently used documents can be stored in memory and retrieved for local printing and copying without having to re-introduce the original. The job-combine box function simultaneously queues documents in different formats – Word, Excel or Power Point – ready to be printed. And in network environments, the d-Copia 45 functions as a joint printer and scanner.

A PROBLEM-SOLVING SCANNER

The optional scanner is an added bonus to enhance the productivity of the Olivetti d-copia 45. It operates a speed of 50 pages per minute and in network environments offers all the new-generation functions such as Scan to PC, Scan to Email and Twain Scan.

INTUITIVE USE

The Olivetti d-Copia 45 couldn't be easier to operate, because its practical, intuitive console provides step-by-step guidance and signals any problems. Frequent functions can be memorised, to optimise time and methods.

SRDF 2 100-sheet automatic feed and duplex for front-back copying and printing

- 1 Standard maximum paper capacity: 3,700 cut sheets
- 2 Touch-screen console for easy operation of all functions
- 3, 4 Two finishers to punch, staple, saddle bind
